

There is Power in the Mud

written by Walter Reeves

inspired by Susannah Davis

original lyrics of "There is Power in the Blood" at http://synergy_2.tripod.com/lyrics/power.html

Would you be free from diseases and blight?
There's power in the mud, power in the mud!
Would you o'er insects a victory fight?
There's wonderful power in the mud!

There is power, power, wonder-working power
In the mud (in the mud) of our land (of our land)
There is power, power, wonder-working power
In the precious mud of our land!

Mix in some humus, manure, or compost
There's power in the mud, power in the mud!
Add in some lime plus potash and phosphate
There's wonderful power in the mud!

There is power, power, wonder-working power
In the mud (in the mud) of our land (of our land)
There is power, power, wonder-working power
In the precious mud of our land!

Till it all in to eight inches of depth
There's power in the mud, power in the mud!
Now all your plants will be the picture of health
There's wonderful power in the mud!

There is power, power, wonder-working power
In the mud (in the mud) of our land (of our land)
There is power, power, wonder-working power
In the precious mud of our land!

(Best sung at the top of your lungs, with a stomp on your shovel every time you holler "Power".)
