# ZOYSIAGRASS LAWN CALENDAR

**MOWING HEIGHT:**
1/2" - 1 1/2"; raise 1/2" higher during summer heat. Remove no more than 1/3 total height at one time.

**WATER:**
1 inch per week if no rainfall

**FERTILIZATION:**
Use any turf fertilizer twice per year. Follow label directions and rate.

**IDEAL pH RANGE: 5.5-6.5**
Use dolomitic lime per soil test recommendations. Can be applied at any time.

**AERATION:**
Use a core aerator during active growth season.

**DETHATCH:**
If thatch exceeds .5" deep use a vertical mower with blades 1" apart; go over the lawn only two directions. Topdressing with .25" soil is most effective.

**SEEDING - NEW LAWN:**
1 - 2 lb. per 1000 square feet

**OVERSEEDING - ESTABLISHED LAWN:**
Overseeding zoysia with ryegrass is not recommended

**SODDING**
500 sq. ft. per pallet

**WEED CONTROL:**
Read product label carefully to determine which weeds are controlled and on which grasses the product can be used.

- **Spring pre-emergent** (prevents crabgrass, goosegrass and other summer weed seeds from sprouting)
- **Broadleaf post-emergent** (spot spray to kill broadleafed plants like chickweed, wild violet, dandelion, wild onion, etc)
- **Grassy weed post-emergent** (kills grassy weeds like crabgrass, dallisgrass, etc. Do not apply to drought-stressed Zoysia.)
- **Winter pre-emergent** (prevents chickweed and other winter weed seeds from sprouting)

* Read weed control product labels carefully. Some products cannot be applied to lawns that will be seeded within a few weeks or when transitioning to active growth.
